GENERAL FILMS:

Blood Moon by George Gerula (14 Minutes)
George regaled us with a long version of the filming of the lunar eclipse. He led us through the different aspects of the eclipse as it goes through the stages. Bands of clouds obscure the light aspects of the eclipse.

My Christmas Present by Miro Kantarsky (9.5 min)

Miro tells us he received a GoPro for Christmas so he thought he'd try it out. He was taking shots of the Christmas party and then the video merged into film of driving through the evening. At home, we see him in his studio talking about what he likes to do. We now see him moving out of his driveway, cruising around the neighborhood, and then onto the highway using two GoPros as he drives along the peaceful countryside. He mentions deep reflections of what our cameras mean to us; reveals about us, and what we show about ourselves to others.

Camping by Jack Simpson (10 min)

Camp Tanamakoon sits on a beautiful lake. The visitors are taken over to the camp via a barge. We see people relaxing on the various docks and enjoying the sun. People on the boat introduced themselves to each other and find common ground. We see the boat travel between the buoys and through the small islands.

When they arrived, everyone chose their cabins and enjoyed the tour of the camp;

taking pictures of all the interesting aspects of the center. There are many things to do like horseback riding, woodworking and all sorts of crafts.

Dinner was very noisy and enjoyable and the meal was very good and plentiful.

COFFEE BREAK:

At this point in time, we had our coffee break.. The conversation, as usual, was very interesting and lots of chatter. The 50/50 draw was won by Carolyn Briggs. Congratulations Carolyn!

Sector 13 by Ray Bayliss (13.5 min)

As the video opens, as we see a space station surrounded by the beautiful vision of space. One space liner is hovering in the area. The camera closes in on a section of the space station where we see two men talking about another meeting being planned. The next day they meet to have breakfast and we are shown a bit of the futuristic things that go on in a modern restaurant.. While they are waiting for their meal they talk about a conspiracy theory and how it will come about.

Just after the war ended, a ship that was destined to be a warship was converted into a luxury liner. The ship gets on its way and one of the men watches it out one of the windows wishing it a good trip. Soon afterwards the man that was left on the station is killed by a rogue alien assassin.

The ship is now traveling through an asteroid belt when the Captain receives a message telling him that Bill was murdered.

He leaves the asteroid belt. Shortly he is told that they are being followed by two unknown ships. Condition red is initiated and soon they are being fired upon. The ships are soon identified as Malaxian vessels and one deliberately crashes into the ship. The second one flies away. This video ends as a part one of maybe a two or three parts..

Hawaii by Harold Cosgrove (14 min)

The video opens with a plane flying to Hawaii. The cruise is a seven-day trip around the islands of Hawaii. The first night was a luau with various styles of Hawaiian dancers. We see views of the ship at night. One of the activities available to do is to learn how to make flower leis. We cruise on, meeting other ships on the river, investigating fern grottos and visiting an active volcano called Lilowea.

At Maui, we visit a tropical plantation with delicious fruits and coffee beans and unusual flowers

Lalainatown is steeped in the deep history of Hawaii. The travelers are treated to another luau and afterwards the travelers view a celebrated show of singing, dancing and even a fire dance. On the ocean, the group enjoyed a wild dolphin sight seeing tour and visited beautiful living coral beds and brightly colored fish

Well another Video Club meeting has been successfully finished. Everyone keep safe and drive carefully and hope we will see all of you in February

Jim Small tells Paula Cutulle to put all her chips in.

Fred can't wait to get his hands on the projector Jon is selling before Carolyn finds out.

Oh....too late. Carolyn found out. The answer is NO!!

Miro Kantarsky notices that Rick Doelle got clocked.

After all these years John Cook & George Gerula still can't cross their legs in sync.

Your Old Video Productions

They may be gathering dust, but we'd love to see them. If you have any of your video productions that are greater than 20 years old, bring them in and show them at a club meeting. Make sure they are playable on the club's system: either DVD, Blue-ray, or on a memory stick.

Jim Small doesn't believe Harold Cosgrove when he tells him Carnival Cruises are better than Viking cruises

Ray Bayliss tests the strength of Iron Fred Briggs

Brenda Bayliss congratulates Carolyn Briggs on winning the 50/50 draw.

Original lost footage of Nate Brooks as Luke Skywalker with an early version of R2D2. Help me Obi Wan Kenobi, you're my only hope.
