Welcome everyone to another interesting evening of videos.

Tonight's MC was Jon

ANNOUNCEMENTS

We will also be asking if you all enjoy this location and sharing our role under Trillium Photographic Club. We will discuss further at the AGM.

Jon's Corner will start at 7:00pm at April's meeting. Bring new and old videos to show

In April we will have our AGM at the beginning of the evening's session. It shouldn't take more than a few minutes.

There will be 7 positions come available on the Executive Board, including the President's position.

We hope you will think about running for a position and join a new Executive Team.

Tonight's presentation is on microphones. Different people have different talents. Michael is our sound guy. For music Dan, Ben L & George. And equipment, Barry.

Jon buying his lucky ticket before Dan does.

Mic talk with Jon.

**Meetings held the 1st Monday every month at the
St. Matthew's Anglican church – 126-136 Plains Rd E Rd.,
Burlington, ON**

Jon stated wind has no sound. But it effects everything around it. Leaves, flags, water, trees & microphones.

There are 3 different types of mics. Dynamic, condenser & ribbon.

Dynamics are the most popular. They take the most abuse. Condenser mics are not meant for loud places such as concert halls. They're good for voices during interviews. Also good as shotgun mics. Ribbon mics are good for wedding & are easy to destroy. Don't scream test, test, test into them. Some are good for cold & some are good for warm climates.

Our ears don't pick up what microphones do. Use a manual microphone when necessary. Always use a headphone jack. If you don't have one. Get one! During an interview with Jack Layton they picked up a hum which came from a different part of the building from a different audio source. CBC, CKOC, and CTV all reported the hum. They were able to fix the problem.

Keep the mic 6-10 inches from your mouth. Not down beside you. If filming down in the basement turn off the furnace & fridge. A lesson Ray learned. Use a ribbon mic for marriage vows at weddings. Switch to a condenser mic afterwards. Use a windsock with the longest gray hair.

Films from Last month

Teddy Bear shoot by Rick Doelle.

Janet McNally sets up shoots for her bears. As she puts it "I shoot bears", which means she takes pictures of little bear dolls.

Testing, testing..one..two..three..Houston, I have a problem.

Now where did I put that stir stick.

Paul is reliving his days when he drove a school bus.

The Photographer and the model by Dan Baker

A step by step setup of Marino getting ready to shoot pictures of his model.

The model arrives and it's time to shoot. Dan shot most of it using a cell phone with a little help from Jon pushing him in closer.

COFFEE BREAK

Everyone enjoyed the refreshments of coffee, tea, and pastries provided by Paula. Jon Soyka won the 50/50 draw...again. WTH! He's making up for his Susan Lucci drought

GENERAL FILMS

Walking with Shadows by Dan Baker.

Nice use of shadows on the church in the woods, steps & cemetery. It gives it that eerie look.

Ukrainian Nation Anthem by George Gerula

Several countries United Kingdom, The Netherlands, France, Germany, Sweden, Poland, Spain and Austria all played the Ukrainian Nation Anthem and at one point they were all synced up.

Keep the videos coming. See you all April 3rd

Same bat time

Same bat channel

And the winner is...Jon again?

Jon upon learning he won for a 3rd time!!
